

## **COME LEARN MORE ABOUT THE ROCK HALL INTERPRETIVE PLANNING PROJECT.**

During this meeting we will discuss the overall objectives of the planning project and how the Rock Hall Museum Board is working to develop an interpretive plan for the entire Town including its local stories, museums, landscapes, marinas, parks, historic buildings, and more.

But we also want to hear from you! The process is designed to directly engage the community and gather different perspectives from citizens.

This is only the first in what will be a series of listening sessions with Rock Hall community members in order to identify important stories and determine how best to improve educational opportunities throughout the town for locals as well as tourists.

The final plan will include a wide variety of recommendations that may, or may not, be adopted at some point in the future as decided by the Council.

*Note- The interpretive planning project is not meant to determine the future of the school building or directly mitigating issues with the collections.*

**Monday September 12, 2022  
6:30 pm  
Sacred Heart Church Hall**
